Membership Dues

AACTE assesses dues on a calendar-year basis and prorates its dues by quarter for institutions joining partway through a calendar year.

DETERMINING YOUR INSTITUTION'S DUES AMOUNT: To determine the dues amount for your institution, you must first determine your school or department of education's productivity as reported to the National Center for Education Statistics' IPEDS database. The dues amount is determined based on the most recent available IPEDS data.

DEFINITION OF PRODUCTIVITY: AACTE defines "productivity" for the purpose of dues calculations as the total number of students reported to IPEDS that received a first-major bachelor's, master's, or doctoral degree in education (not including students receiving teacher licensure only). This productivity total represents those individuals identified by IPEDS CIP code 13.

DETERMINING YOUR INSTITUTION'S PRODUCTIVITY TOTAL: To determine your institution's productivity total, contact your institution's central office data administrator OR contact AACTE's Membership department for assistance in pulling the data directly from IPEDS (recommended).

NOTE: Future-year dues amounts for your institution will be calculated automatically with data that AACTE will download directly from IPEDS for the appropriate completion year.

Once your institution's productivity total has been determined, compare to the dues and representative ranges below to determine your dues amount and representative allotment.
